Assignment 8 : HTML XML JavaScript

Sumit Kalra

Oct. 28, 2013

Abstract

Technologies: HTML, XML, JavaScript.

1 Part-1

You are required to create a html form, which can accept as much as possible details to create bibtex entry such as paper title, author(s), conference name, date for different kinds of documents (article, journal, poster, paper etc.) and display all these information on the web page in xml format.

Deadline: 28-10-2013 11:59AM

2 Part-2

You are required to save the xml format generated in Part-1 manually in a file and parse this file using XML parser. After parsing, you are required to display all the contents in standard bibliography format. Please refer to IEEE standards for more details on the bibliography format specifications.

Deadline: 04-10-2013 11:59AM

3 General Instructions

- Those who will not be here in IITK campus, either they can use VPN Client to submit the assignment on moodle site or they can mail to their respective TAs only. Please don't send me or Sir any assignment submission as we are nothing to do with submission process and also it's hard to handle for us. If you are planning to use VPN Client, please install it from CC website before leaving IITK intranet.
- Sample files also have been uploaded under announcement section.
- Please start preparing for final exam as well and Happy Diwali.
